

FISHER *Stairs*

...the next step in custom stairways!

Your home is unique...Should your stairway be anything less?

At Fisher Stairs of Middlefield, we understand that the home is often an individual's most significant investment.

If a homebuilder, your reputation can only be as solid as the materials you choose. Or as a homeowner, you're not building a house...your dreaming of a lifestyle!

That is why we carefully select our materials from the species of our customer's choice...and handcraft a unique, well-built stairway that stands as a landmark for future generations. Whether you are seeking a luxurious spiral staircase to tower over a grand foyer or a more modest stairway to tastefully blend the home's levels, a stairway from Fisher Stairs is your next step!

Treads...risers...a bullnose...stringers...rosettes... balusters...newels...these are merely components of a stairway. Likewise, straight, flared, curved, or spiral are only styles of stairways. But when skillfully constructed by Fisher Stairs, we like to think that we have helped deliver a lifestyle!
